1. **Prayerful Consideration.** As you read the message outlines and go through the retreat, consider which points impressed or touched you. Write down these points.
2. **Share.** Share with your group the points you wrote down.
3. **Title.** What do you want the gospel visual/multimedia to be about?
4. **Big Picture.** How would you want to deliver the content? A video? What would you show in your video to deliver the key message? A visual? What kind of visuals?

5. **Details.** Write a speech for the video/visual, as needed. The intended audience is unbelievers, and your goal is that by the end of the speech, the audience will feel compelled to be saved and pray to receive the Lord.
6. **Closing Prayer.** At the end of the visual/multimedia, there should be a prayer with which the audience could pray to receive the Lord.
7. **Processing.** Convert the speech into a visual and/or multimedia format (e.g., video). If you'd like to add music, we suggest using hymns/spiritual songs or instrumentals.
