

The Fullness of the Holy Spirit – Wind

Tune: English hymnal, #273

1. Wind from heaven blown and as Spirit known,
When on Pentecost He was sent.
Hearts He softened then, full reviving them,
Blowing 'til we were released from sin.

Chorus :
Blowing! Blowing! Holy Spirit blowing!
Cov'ring, Cov'ring! 'Neath the cloud we go!
Burning! Burning! Holy fire burning!
Glowing, Glowing, with electrum's glow.

2. As a cloud so great with abundant grace
O'er the Tent He stands as we meet,
That our life He'd be and our sanctity
For His dwelling place on earth replete.
3. All-consuming fire burns what is defiled
And my ev'ry part purifies,
Burning thoroughly all the dross in me;
And through this the Spirit deifies.
4. His electrum shines in this heart of mine
That God's nature may be possessed.
His divinity now is joined to me
That through man His life can be expressed.
